timeinvoicer.com

hello@timeinvoicer.com

Your business data belongs to you. Only you.

As an independent professional, you need full control over your client data and invoices. TimelInvoicer was built exactly for that:

- ✓ **Your data stays on your device.** All invoices, contacts, and data remain exclusively on your device.
- ✓ **Your own calendar.** You use your local Android calendar — no third-party server ever sees your appointments.
- ✓ **Anonymized calendars.** Optionally create anonymized calendars — for web sync across devices, room scheduling, or team coordination. No client names exposed. Privacy stays intact.
- ✓ **AES-256 encryption.** Optional backups are end-to-end encrypted. Only you hold the key.
- ✓ **Even the automatic recognition happens locally.** No data leaves your device — not even for service detection.
- ✓ **GDPR-compliant by Design — Made in Austria.** No analytics, no ads, no third parties.

Made in Austria

Works Offline

GDPR Compliant

Android (iOS coming soon)

Developed in Lower Austria. For psychologists, psychotherapists, psychiatrists, and other therapists.

Developed under the leadership of a psychologist and psychotherapist.

TimelInvoicer

Invoices, reports, statistics. Your practice assistant

Tap or voice. Invoice done.

With one tap or your voice.

For psychologists, psychotherapists, other therapists, and solo professionals.

No double entry. No forgotten fee. Your calendar becomes an invoice or fee note — in seconds.

Start your 30-day free trial

Insurance applications, reminders, receipts & expenses included

Ready in 5 minutes — guided setup, no manual.

FEATURES

Everything you really need.

Calendar as your data source

Appointments stay your source of truth. TimeInvoicer derives contact, period, service, and fee from your calendar entries.

Invoice by tap or voice

Tap an event or use your voice, check the preview, then print, save, or share the invoice or fee note.

Services detected automatically

Matching services for the selected period appear in the preview and can be edited right there.

Applications & billing codes

Insurance applications, ICD-10 billing codes, fees, and document templates for practice workflows.

Receipts & expenses

Scan incoming invoices and automatically assign expenses to categories.

Reminders & payments

Open, paid, or overdue: see what is missing and start payment reminders quickly.

Analytics & year view

Revenue, open items, services, and yearly summaries for your practice or business.

HOW IT WORKS

Tap or voice → invoice

1

Event in your calendar

Work as usual: enter an appointment, add a service keyword or use your defaults.

2

Tap or voice

Contact, insurance number, period, and services are suggested for the selected contact and calendar.

3

Print or share

Review the PDF, edit services if needed, then print, save, or send.

Why TimeInvoicer?

- **No second system** — your calendar is enough
- **No browser needed** — native Android app
- **No internet needed** — works completely offline
- **30-day free trial** — all features, zero risk
- **No cloud** — all data stays local on your device
- **Built for many fields** — therapists, psychologists, consultants, coaches, creatives
- **Android now, iOS coming 2027** — native app, import contacts, Home Screen shortcuts
- **4 languages** — German, English, French, Spanish — ready for international practices
- 🕒 **With 20 clients per week** you save around 6 hours of admin work per month.

“I used to spend Sunday evenings on invoices. Now it takes me 20 minutes on Friday. TimeInvoicer reads my calendar — I just confirm it.”
